TYRES

# TRUCK & BUS RADIAL TYRE REGIONAL

- Low rolling resistance, good wet grip and high mileage from upgraded compound
- Multi-angle grooves for better tread rigidity and lower rolling noise
- Unique sipes on tread brings better wet grip and snow braking performance
- Optimized rib width for even wear

# TRUCK & BUS RADIAL TYRE REGIONAL

- Upgraded 3D sipes for better wet grip and better tread rigidity
- Even wear and low rolling noise brought by carefully crafted lateral grooves
- Better wet grip, high mileage from novel compound
- Optimized directional pttren with specially designed sipes for reliable traction on wet ground and snow

# TRUCK & BUS RADIAL TYRE **REGIONAL**

- Wide base single tire for highway transportation
- Super steel belt carcass construction enhances casing strength and maximizes tyre load ability
- The highly wear resistant tread compound greatly improve tread durability
- Special strong shoulder improve tyre shoulder durability
- Unique crown grooving for better heat dispersion

## **MAX FORCE T1**

# TRUCK & BUS RADIAL TYRE ON & OFF ROAD

- Unique tread design for improved traction and tread wear
- Fuel efficient with lower rolling resistance
- Enhanced casing structure for better handling and footprint
- Advanced waer resistance compound and low void ratio for greater mileage
- Zigzag design improves traction

## MAX FORCE A1

	PR	LI/SI	POSITION	RR 	WG 	NOISE 	Tread Depth (mm)

# TRUCK & BUS RADIAL TYRE ON & OFF ROAD

- Improved load capacity from reinforced bead construction
- Robust endurance from high tensile strength casing and belt package
- Good mileage, excellent endurance from high wear-resistant, high chip & cut resistant rubber
- Good chip&cut resistance from massive tread blocks and unique lock-bars
- Reliable traction from widened tread and specially designed pattern

## MAX FORCE D2
